WORK EXPERIENCE

Founder and Principal Consultant Unblock Agency

05/2020 - Present

Remote, US

Unblock Agency is a consulting firm that specializes in helping early to mid-stage startups build high-performing teams without sacrificing the well-being of its team members.

Achievements/Tasks

- Founded Unblock Agency, introducing large-scale project management strategies to startups, managing 5 startups over periods of 6 to 24 months.
- Established and executed agile operations for startups, from inception, including customization of issue and project tracking tools for optimal kanban and scrum practices.
- Coached product owners on effective agile methodologies, guiding the development of clear priorities and user stories.
- Mentored development teams to achieve agile autonomy, fostering collaboration and efficient project execution.
- Orchestrated all ceremonies and meetings, implementing streamlined processes to enhance efficiency and project progress.
- Trained internal team members in scrum facilitation, empowering them to lead with agile autonomy.
- Led creation of release management systems for 2 startups, ensuring structured and successful product releases.
- Tracked sprint metrics and presented outcomes to founders and upper management, facilitating data-driven decision-making.

Agile Project Manager Radancy

08/2022 - 03/2023

Remote, US

Achievements/Tasks

- Worked concurrently with 3 different teams, providing support to 2 teams simultaneously, ensuring seamless coordination and communication.
- Led and orchestrated all sprint ceremonies, including sprint planning, daily standup, sprint review, and sprint retrospectives, fostering efficient Agile practices.
- Gathered and analyzed essential sprint metrics such as burn down, sprint velocity, and team sprint capacity, enabling data-driven decision-making.
- Authored comprehensive sprint summaries encompassing executive overviews, sprint content (user stories, bugs, spikes, tasks) categorization, and release stage status updates.
- Managed and mitigated risks through tracking team PTO, identifying potential obstacles, and overseeing code dependencies, ensuring project continuity.
- Facilitated resolution of client-reported bugs in collaboration with customer support teams, adapting current sprint goals to optimize project outcomes.
- Proactively tackled daily blockers, maintaining uninterrupted progress by offering timely solutions and support to the development teams.
- Promoted cross-team collaboration, stepping in to address inter-team obstacles and facilitating effective cooperation for successful product increments.

Scrum Master ElevateU

11/2021 - 04/2022

Remote, US

Achievements/Tasks

- Spearheaded organization-wide mentoring in agile methodologies and scrum practices, resulting in a notable boost in overall operational efficiency.
- Designed and implemented a comprehensive team management system, task tracking, and epic management system from the ground up, streamlining project workflows and communication.
- Transformed version control practices by restructuring GitHub workflows, transitioning from an insecure personal branch approach to a secure system involving feature branches, dev branch, staging branch, and production branch, ensuring robust code management.
- Led software team coaching in optimal coding practices, including unit testing and pull request code reviews, elevating code quality and fostering collaboration.
- Coached the Head of Product in effective product ownership strategies, ensuring task and user story priorities were transparent and well-defined for all team members.

WORK EXPERIENCE

Product Owner and Scrum Master

The Luminosity Lab

01/2019 - 05/2020

Tempe, AZ

Achievements/Tasks

- Conceptualized and pitched a successful product idea to leadership during initial role as a data scientist, achieving rare project acceptance rate of < 5%.
- Orchestrated recruitment of 10 internal team members dedicated to the project, serving as both Product Owner and Scrum Master due to extensive business and market knowledge.
- Pioneered the implementation of Agile methodologies within the organization, leading three cross-functional teams through all ceremonies and constructing Agile processes from the ground up.
- Drove adoption of Agile practices across the organization by coaching 5 product owners and 2 scrum masters, leveraging successful project execution and refined Agile cadence.
- Collaboratively designed and developed a robust MVP, culminating in the successful external launch of the project.

Contact : Mark Naufel - mnaufel@asu.edu

Data Scientist

The Luminosity Lab

09/2018 - 01/2019

Achievements/Tasks

- Collaborated closely with the AI lab to provide expert guidance and consulting on various artificial intelligence projects.
- Led a dedicated team responsible for conducting comprehensive data analysis and designing efficient databases to collect meaningful data.
- Ensured seamless feature collection and optimized model prediction through meticulous database design.
- Facilitated Scrum ceremonies, promoting Agile methodologies and fostering a culture of collaboration and efficiency within the project team.

Contact : Mark Naufel - mnaufel@asu.edu

Data Analyst

Million Dollar Teacher Project

06/2018 - 08/2018

Achievements/Tasks

- Analyzed school data to validate the effectiveness of the Classroom Support Team program, facilitating program enhancements and success.
- Designed and implemented comprehensive data collection systems for all Million Dollar Teacher Project programs, improving data-driven decision-making processes.
- Produced and presented data analytics reports, demonstrating the tangible success and impact of various programs.
- Collaborated with cross-functional teams to develop a process for evaluating and managing contributions from volunteers and interns within the Classroom Support Team program, streamlining operations.
- Leveraged diverse platforms to create innovative data collection and evaluation tools, showcasing adaptability and creativity in data analysis.
- Received commendations for exceptional communication skills, both written and verbal, while fostering positive discussions and team collaboration.
